Piscataqua Landscaping Cleans Up On Earth Day

Piscataqua Landscaping Co, Inc. is doing its part for Earth Day this year. The company will send crews to two area locations to help keep the seacoast beautiful.

The first location, called Ward Park, is located at the corner of Middle Road and Monroe Street in Portsmouth. Piscataqua Landscaping first encountered this plot in May of 2006 as a Rotary Club "Hands On Project." The company led volunteers to plant trees and shrubs in the park. Now, three years later, they are returning to clean up the park. On Earth Day, Piscataqua Landscaping will return to the site to clean up the plantings, edge the flower beds and spread mulch to the renew the beds.

The second Earth Day devotion is in New Castle, where Piscataqua Landscaping has approached the town to

establish an "Adopt A Spot." The company wanted a parcel that they could develop and maintain as a thank you to the many residents of New Castle who have supported them over the course of their thirty years in business. On Earth Day, Piscataqua Landscaping will begin revamping the left side entrance to New Castle Commons. They plan to build new planting beds and will incorporate a historic anchor that has been held by the town.

Piscataqua Landscaping Co., Inc. is an award winning landscape design, installation, and lawncare company celebrating its 30th year in business. Their custom stonework and gardening products and service show up in some of the most recognized landscapes across Maine and New Hampshire.
