Piscataqua Landscaping Announces Extreme Landscape Makeover Winner

Piscataqua Landscaping Company is proud to announce the winner of our 30th Anniversary Extreme Makeover: Landscape Edition Contest. On October 17th our crew will overhaul the landscape of "Piano Lew" Fournier in Portsmouth, NH.

Once an avid gardener, dancer and piano teacher Lew is now confined to a wheel chair preventing him from doing everything he once loved. In 2007 he suffered what they called a blackout which placed Lew in rehabilitation where he proceeded to have at least two more strokes unbeknownst to many. He now requires 24/7 care which is given to him by his significant other (a story on its own). We know that what we are about to provide will make a real difference in their lives. We encourage you to listen and watch the local media to follow the

progress of our first ever Extreme Makeover Landscape Edition Contest!

We want to thank everyone once again for participating in this very worthwhile contest and wish you all the very best with your landscaping adventures.
